

YOUR INCOME SUPPORTS YOUR LIFESTYLE

CONSIDER THIS:

If you could not work tomorrow, how long could you continue your current lifestyle?... *days, weeks, months or years?*

Accidents and sicknesses happen every day!

Some may result in a few days off of work, while others may result in weeks. But a more serious incident may leave you unable to work for months or even years, *causing severe financial hardship.*

Additional medical expenses may also be required during this time of disability; hospital care, home care, physiotherapy or chiropractic services, all at a time when your income has stopped.

How much money would you need per month, to help continue your lifestyle

Where is this money going to come from? Your savings?... Your RSP's?...

WE CAN HELP EASE THE FINANCIAL BURDEN.

The Edge Value

SELF EMPLOYED OR CONTRACT WORKERS

Traditional disability plans protect "Earned Income" yet your objective through tax planning is to show as little earned income as possible. At The Edge, we understand that. We know your lifestyle income is not your earned income. This is why benefits can be based on your Gross Business Revenue.

EMPLOYEES

If you are covered under a group plan many of your benefits are provided already, however your authorized Edge Representative can review your current plan and discuss how you can integrate personal coverage to truly protect your lifestyle.
